# CARBO-NATION

*"swim" batch 002*

**CARBO-NATION is for everyone who loves bubbles**. Meant to be immediately **accessible** and **delicious**, it is a blend grape varieties, aged extensively on yeast in barrel, and bottled ready to drink. **Candied citrus** and **stone fruits** crown the rich and juicy palate.

A Blend

This wine is based on a **perennial reserve** of mature wines. Individual lots from 2021, 2022, 2023, and 2024 have been blended and continued to age on yeast in neutral barrels. Each bottling contains portions of this aged reserve along with young wines, carefully blended. Grape varieties include Albarino, Chardonnay, Pinot noir, Primitivo, Carignan, Pinot grigio, and Chenin blanc (basically everything we work with!)

Ready to Drink

A **lower CO2 content** makes this wine more gentle and accessible. The bottles were crown capped in order to preserve the **natural youth and freshness** of the wine. The wine has plenty of age in barrel. We prefer crown caps as a final closure. They are safe and easy to open, and they are trusted across the world to age wines before disgorging (including Champagne!)

0 grams dosage/residual sugar
TA 5.93 g/L, pH 3.46, 12.2% Alc by Vol.
CO2 3.5 saturations, **frizzante**
